District Number - 6690

District grants give Rotarians freedom in determining how to best spend funds donated to The Rotary Foundation in their district. Each Rotary year, districts may apply for one district grant, which can be used to support one or more projects, based on that district's interests and needs.

The Rotary Foundation funds district grants with District Designated Funds (DDF). Each year, your district may request up to half of your available DDF, which in turn represents half of your district's Annual Fund donations from three years earlier. This system, known as SHARE, enables Rotarians to benefit from the short-term investment of their donation dollars.

Applying for a district grant is an easy, online process. Note, however, that the application requires specific information about your spending plan, bank account, and account signatories, so it's best to have this information available before you begin.

Also note that district grant applications must be authorized by the district governor, district Rotary Foundation committee chair, and district grants subcommittee chair. Before starting this application, please ensure that your district governor has identified these officers and that the officers have registered with Member Access.

3:	West Lafayette	Community development: general	West Lafayette is a small rural town in eastern Coshocton County, with a population of approximately 2300. For many years now, Main Street has ben stagnant with growth, physical improvements and community pride. Numerous buildings on main street have been empty for ears and the eye appeal of main street has dwindled. These factors play adversely on the enthusiasm of spirit and pride that are felt by citizens of the town. Recently new leadership has taken the stage through the election of a new mayor, the hiring of a dynamic police chief, the employment of a young and energetic village administrator as well as a campaign to involve local leaders in making West Lafayette a strong, spirited, beautiful growing rural community. The West Lafayette Rotary Club has developed a plan to add beauty to main street by bringing the scenery to life through the planning of large flowering planters on the corners of the two major crossroads. Recently a study was done that concluded that in addition to the local residents there are also 7800 vehicles that travel Main Street daily as well.	United States	2000	1685

			<p>Currently you see no greenery, no spark, nothing that makes Main Street stand out in our little community. The West Lafayette Rotary Club proposes to purchase eight, self-watering planters that would be placed by the eight existing light posts on the corners of Main and Oak Streets and Main and Kirk Streets. In addition, these light posts also have attached to them plant hangers where the Rotarians would hang 16 additional hanging baskets. The Rotarians will be working with guidance from local plant specialists at a local business called the Garden Patch, who have been instrumental in helping other municipalities in creating beautiful outdoor plantings. The future vision for this project would be for other clubs and organizations to get involved by providing more planters and becoming an "America in Bloom" Community.</p>

5:	Belpre	Community development: construction/renovation	<p>Howes Grove Park is located in Belpre next to Belpre City Building. There are no benches in this park. There is a shelter for families to get together but if they are walking around the park, they do not have any place for elder individuals to rest. There is a play ground but again, there is no place for adults to sit and watch their children.</p>	United States	1500	1500
6:	Bethesda-Belmont-Morristown	Health: general	<p>The club is going to purchase a AED to be placed in the community center in the town of Bethesda. The community center is used by many groups and organizations for meetings and other functions. The center is also utilized by all three of the communities that our club represents (Belmont, Bethesda, and Morristown). Some facts that have made us decide this is what we need to do for our communities: Sudden cardiac arrest (SCA) is a leading cause of death in the United States, killing nearly 300,000 every</p>	United States	610	525

			<p>year. The survival rate for SCA is less than 5%. This is due to limited AED accessibility. If an SCA victim receives defibrillation through an AED within the first minute, the survival rate is 90%. All AED devices have voice prompts, enabling untrained bystanders to easily administer therapy with an AED. If defibrillation is delayed by more than ten minutes, the survival rate is less than 5%.</p>			
7:	Bridgeport	Community development: construction/renovation	<p>The Bridgeport Rotary Club will spearhead the construction of a handicap ramp at the Bridgeport Post Office on Lincoln Avenue. Presently there are two sets of stairs to make entrance to the facility. People have fallen many times on using the stairs. It is a hazardous situation that should have been addressed long ago. I am in the process of working with the Post Master who is much in favor of the proposal. However, we must also work with the federal government for plan approval and some possible funding. It is going to take a local organization, such as Rotary, to support the process and solicit some local funding from the community in general. Our club is proposing to get it started by getting architectural and/or engineering plans drawn up for construction approval.</p>	United States	1000	1000
